

INSTRUCTIONS FOR STUDENT HEALTH PORTAL

Seton Hall Health Services uses an electronic health records management system called Mediat. The Student Health Portal is the student's secure entry point to the system and his or her individual health record.

To Log-in to the Student Health Portal:

- Go to: <https://shu.medicatconnect.com/>
- Log-in with your "PirateNet" user name and password
- Complete:
 - Health History
 - TB Risk Assessment (Refer to **Countries with High Incidence** list)
 - Immunizations (enter vaccine dates for required section)

Immunizations will be verified by Health Services staff after the hard copy is received.

You may upload your immunization documentation from your health care provider into the portal by clicking "upload documents" on the student portal home page. You may also fax, mail or drop off this information at Health Services.

Vaccine data is required by state law and University policy. This information must be received for class registration clearance.

Call **Information Technology Service Desk (973) 275-2222** if you do not know your username or have technical issues with the portal.

Call **Health Services (973) 761-9175** if you have questions about health history information or vaccine data.
